Final Report and Oral Presentation of

Network Performance Analysis and Simulation

Requirements:

1. Reading a journal/conference paper.
2. Running simulations to get numerical results for the paper using your own codes or a software package, e.g., ns-2.
3. Comparing these results with original ( analytic) results.

Topic: Any topic related to the course

Number of members in a Team: 1 person for graduate students, 1-3 people for undergraduate students

Time of Presentation: about 15-20 minutes per team

Requirement for the final report: 5-15 pages of A4 size with one cover page written in Chinese or English with double space in single column style, excluding your codes attached.

Presentation Date: June 14 (21)

Due Date of the Final Report: the same as the presentation date
